Point 17 – Election of auditors, deputy auditors or registered public accounting firms

Point 18 – Decision regarding the nominations committee

The nominations committee proposes, like last year, that the company shall have a nominations committee, that no remuneration be paid to the committee although the company shall pay the costs of the committee, and that there be a nominations process with the following content.

1. The nominations committee shall comprise the chairman of the Board and three, or in some cases four (see point 6 below), additional members.
2. Based on the shareholder statistics received from Euroclear Sweden AB each year on 31 August, the chairman shall without undue delay contact the three largest shareholders (based on number of votes) and ask each of them to appoint within a reasonable period one member of the nominations committee. If a shareholder declines this offer, the offer shall be made to the next largest shareholder who does not already have the right to appoint a member to the committee. The nominations committee shall be constituted at the latest one month after it has been appointed, i.e. 30 September.
3. The member proposed by the shareholder holding the most votes shall act as chairman of the nominations committee.

If the shareholder declines to replace a representative the place on the committee shall be offered to the next largest shareholder who has not already appointed a representative or has refrained from doing so.
8. The nominations committee shall perform the duties that from time to time arise in accordance with Swedish Code of Corporate Governance. The duties of the nominations committee include making proposals for (i) chairman of the AGM, (ii) chairman of the Board and other Board members, (iii) fees and other remuneration for Board assignments for each Board member, (iv) fees for auditors (v) selection of auditors and (vi) fees for members of the nomination committee and proposals for the nomination process in general.

BOARD'S PROPOSALS

The Board of Semcon AB (publ), corporate registration number 556539-9549, proposes that the AGM of 28 April 2014 make the following decisions:

Point 9 – Decision regarding appropriation of the company's profits according to the adopted balance sheet

The Board proposes that remaining profits of SEK 351,557,583 at the disposal of the meeting be allocated as follows:

Dividend of SEK 2.50 per share to shareholders	SEK 45,281,335
<u>Carried forward to new account</u>	<u>SEK 306,276,248</u>
Total	SEK 351,557,583

The maximum amount of the dividend is SEK 45,281,335 if the company owns none of its shares on the record date for the dividend. On the date for notification for the AGM, the company had 18,112,534 shares, of which at that time 142,718 shares do not give entitlement to a dividend and are bought-back treasury shares. The total amount of the dividend, SEK 45,281,335 could with this background be lower depending on the amount of treasury shares acquired on the record date for the dividend.

It is proposed that the record date for the dividend be 2 May 2014. If the meeting votes for the proposal it is expected that payment will be made via Euroclear Sweden AB on 7 May 2014.

In connection with the proposal, the Board has made assurances in accordance with chapter 18, section 4 of the Swedish Companies Act, see [Supplement A](#).

Point 19 – Decision regarding guidelines for determining salaries and other remuneration to senior executives

The Board proposes that the AGM decides to establish the following guidelines for determining salaries and other remuneration to senior executives up to the time of the 2015 AGM.

1. In these guidelines, senior executives are the CEO and President and the other members of the Semcon Group's senior management team.
2. These guidelines shall apply for agreements reached after the 2014 AGM and for previous agreements changed after the 2014 AGM.
3. The company shall have a remuneration level and other employment terms that are needed to recruit and keep key decision makers with the right skills and capabilities to achieve the company's objectives. Total remuneration – made up of various components such as fixed salary, bonus, participation in share-linked incentive scheme, pension benefits and other remuneration and benefits – shall be reasonable, competitive and market-based, and

shall be decided with regard to, among other things, performance, position and importance for the Group.

4. Fixed salary shall be paid for satisfactory work and shall normally be reviewed once a year.
5. A bonus of a maximum of 6 months' salary shall be offered to key decision-makers. This bonus shall be primarily based on results and bonus targets, established once a year.
6. In addition to applicable collective agreements and similar, key decision-makers shall be given the right to arrange individual pension solutions, whereupon salary and bonus relinquishment may be utilized to increase pension payments provided no increased cost is incurred for the company over time. All pension solutions agreed in future shall be premium-based.
7. Notice of resignation for key decision-makers shall be a minimum of 6 months and maximum of 12 months. Notice of dismissal from the company's side shall be at most 12 months. Dismissal salary and severance compensation combined shall not exceed 12 months' salary.
8. In addition, other remuneration and benefits may be offered to key decision-makers to facilitate them in carrying out their work.
9. The Board has the right to deviate from these guidelines in individual cases if there is good reason.

To ensure continuity, the Board's proposals are in line with previous years' remuneration principles and agreements.

The Board has not exercised its right to deviate in certain cases from the remuneration principles established at the 2013 AGM.

In other matters, see the 2013 annual report for details of remuneration paid to key decision-makers in 2013.

Point 20 – Decision to authorize the Board to decide on new issues of ordinary shares

Background and reasons for the proposal, etc.

The Board has in previous years been authorized to decide on the issue of new ordinary shares. This proposal requests similar authorization.

On full utilization of the authorization to issue new shares, the total number of shares and votes in the company can increase by 1,811,253, representing dilution of around 10% of current shares and votes, and the same dilution effect on the key indicators reported by the company regarding the Semcon share. The dilution effect is calculated as follows: 1,811,253 new shares divided by current 18,112,534 shares.

The reason for the proposal, and the reason for deviating from preferential rights for existing shareholders, is that the Board wishes to create cost-efficient and flexible opportunities for mak-

ing payments for acquisitions of companies or businesses or parts thereof. Against this background, a decision in accordance with the proposal is judged to be beneficial for shareholders.

Authorization for the Board to decide on new share issue of ordinary shares

Against the background of the statements above, the Board proposes that the AGM authorize the Board up to the time of the next AGM on one or more occasions to decide on the new issue of ordinary shares in the company on the following conditions:

1. New shares may only be issued to enable use of ordinary shares as liquidity in the acquisition of companies or businesses or parts thereof.
2. New shares may be issued with deviation from existing shareholders' preferential rights.
3. The new share issue shall comprise a maximum of 1,811,253 ordinary shares.
4. The subscription price shall correspond to the share's assessed market value at the time of issue.
5. Payment for the shares shall be in capital contributed in kind through settlement of a receivable. The Board has the right to set other conditions for issuing new shares.

The Board, or individual appointed by the Board, are authorized to make minor formal adjustments to the decision that may be necessary for registration with the Swedish Companies Registration Office.

Majority requirement

For decisions to be valid requires the respective decision to be supported by shareholders with a minimum of two-thirds of the voting rights and shares represented at the meeting.

Point 21 – Decision to authorize the Board to decide on (a) acquisition of ordinary shares and (b) transfer of ordinary shares

Background and reasons for the proposal, etc.

The Board has in previous years been authorized to decide on the acquisition and transfer of ordinary shares. This proposal requests new authorization.

The reason for the proposal, and the reason for deviating from preferential rights for existing shareholders, is that the Board wishes to create cost-efficient and flexible opportunities for improving the company's capital structure and thereby increase share value, and for making payments for, or financing, acquisitions of companies or businesses or parts thereof. Against this background, a decision in accordance with the proposal is judged to be beneficial for shareholders.

(a) Authorization for the Board to decide on acquisition of ordinary shares

Against the background of the statements above, the Board proposes that the AGM authorize the

Board up to the time of the next AGM on one or more occasions to decide on the acquisition of ordinary shares in the company on the following conditions:

1. Purchases shall only be made to improve the company's capital structure or to enable use of ordinary shares as liquidity in making payments for, or financing, acquisition of companies or businesses or parts thereof.
2. Purchases may only be made on NASDAQ OMX Stockholm or through purchase offers directed to all owners of ordinary shares.
3. Purchases of shares on each occasion shall be a maximum, after the purchase, of 10% of all shares in the company.
4. Purchases on NASDAQ OMX Stockholm shall be at a price per share within the current share price range for ordinary shares, or in the event that the Board assigns a stock exchange member to accumulate a specific amount of the company's shares in their own account for a specific period, at a price per share within a specified price range for the period or equivalent volume-weighted average share price, and purchases linked with an acquisition offer shall have as their maximum price per share the market price at the time of the offer plus at most 20%.
5. Payment for ordinary shares shall be in cash.
6. The appropriate terms in the listing agreement with NASDAQ OMX Stockholm shall be observed for purchases.
7. The Board has the right to set other conditions for acquisition of shares.

In connection with the proposal, the Board has made a statement in accordance with chapter 19 § 22 of the Swedish Companies Act, see Supplement B.

(b) Authorization for the Board to decide on the transfer of ordinary shares

Against the background of the statements above, the Board proposes that the AGM authorizes the Board up to the time of the next AGM on one or more occasions, with deviation from shareholders' preferential rights, to decide on the transfer of ordinary shares in the company on the following conditions:

1. Transfers shall only be made to use ordinary shares as liquidity for acquisition of companies or businesses or parts thereof.
2. Transfers on each occasion may be of the total number of ordinary shares owned by the company.
3. Transfers shall be at a price corresponding to the share's assessed market value in connection with transfer.
4. Payment for ordinary shares shall be in capital contributed in kind or through settlement of a receivable.
5. The Board has the right to set other conditions for transferring shares.

Majority requirement

For decisions to be valid requires the respective decision to be supported by shareholders with a minimum of two-thirds of the voting rights and shares represented at the meeting.

Statement in accordance with chapter 18 § 4 of the companies act

The Board of Semcon AB (publ), corporate registration number 556539-9549, makes the following statement in accordance with chapter 18 § 4 of the companies act in connection with the proposal to pay a profit dividend of SEK 2.50 per share, which would mean a maximum of SEK 45,281,335 (based on ownership of zero treasury shares) to be paid. The Board has submitted this proposal for a decision by the Annual General Meeting to be held on 28 April 2014; item 9 on the proposed agenda.

Justification

In accordance with Semcon's financial targets, the dividend paid to customers over the long term shall amount to at least one third of earnings after tax. The Board's view is that the size of future dividends should be based on Semcon's long-term growth and profit trend as well as capital requirement for continued expansion with consideration for these financial targets. The proposed dividend represents 51% of the company's earnings after tax, which is in line with Semcon's financial targets with regard to long-term growth and profit trend as well as capital requirement for continued expansion.

The Board considers there to be full coverage for the company's restricted equity following the proposed profit dividend.

The Board also considers that the proposed dividend to shareholders is reasonable considering the parameters stated in chapter 17 §3, second and third paragraphs of the Companies Act (type, scope and risks of the business, and consolidation requirement, liquidity and general position). The Board will therefore make the following statement.

Type, scope and risks of the business

The Board considers that the company's and Group's equity following the proposed profit dividend will be sufficiently large in relation to the business' type, scope and risks. In this context the Board takes into consideration, among other things, the company's and Group's historic development, the economic situation, expected development and investment plans.

Consolidation requirement, liquidity and general position

The Board has made a general assessment of the company's economic position and the company's opportunities in the long term to meet its commitments. The proposed dividend constitutes 11.5% of the company's equity and 7.2% of the Group's equity. Following payment of the dividend the company's equity/assets ratio will be 57.4% and the Group's equity/assets ratio will be 46.7%. The company's and Group's equity/assets ratio is good considering current conditions for the industry. With this background, the Board considers that the company and Group have good prospects for tackling future business risks and withstanding possible losses.

The company and Group have good liquidity and also good access to liquid reserves in the form of both short and long credit, which means that the company and Group are well equipped to meet any variations in liquidity or unforeseen circumstances. The Board therefore considers that the proposed profit dividend will not therefore affect the company's and Group's ability to meet its payment commitments at the right time.

The Board has considered all other known conditions that may have significance for the company's and Group's economic position and which were not included in the previous statements. No circumstance has thereby arisen which would make the proposed dividend unjustifiable.

The Board

Statement in accordance with chapter 19 § 22 of the companies act

The Board of Semcon AB (publ), corporate registration number 556539-9549, makes the following statement in accordance with chapter 19 § 22 of the companies act in connection with the proposal for a decision authorizing the Board to decide on the purchase of the company's own ordinary shares submitted by the Board to the Annual General Meeting of 28 April 2014; point 21(a) of the proposed agenda.

Type, scope and risks of the business

The type and scope of the business are described in the articles of association and the 2013 annual report.

The business performed by Semcon and its subsidiaries does not entail extra risks in addition to those generally associated with business of this type or what normally occurs, or may be expected to occur, in the industry.

With regard to significant events, reference is made to the directors' report in the 2013 annual report; in addition to these events, no events have occurred that affect the ability of the company to pay a dividend or acquire its own shares.

Consolidation requirement, liquidity and general position

The financial position of the company and the Semcon Group as of 31 December 2013 is presented in the 2013 annual report. The annual report also presents the principles used to assess the value of assets, allocations and liabilities.

The proposal for authorization for the Board to decide on the purchase of the company's own ordinary shares indicates that purchases may be made up to an amount equal to 10% of the total number of shares in the company; at present a maximum of 1,811,253 ordinary shares. Calculated at the current share price on 12 March 2014, a re-purchase of a maximum of 10% would amount to around SEK 119.5 million.

The company's non-restricted equity as of 31 December 2013 is presented in the 2013 annual report and amounts to around SEK 351.6 million. The Board will propose to the AGM of 28 April 2014 that a dividend of SEK 2.50 per share be paid to shareholders, amounting in total to SEK 45 million.

There is full coverage for the company's restricted equity after execution of the proposed authorizations.

The proposed authorizations do not jeopardize completion of the investments considered necessary. Neither do the proposed authorizations affect the company's or Group's ability to meet existing or expected payment commitments. The company's and Group's liquidity forecast, with consideration to the proposed authorizations, includes plans to meet variations in ongoing payment commitments.

The company's and Group's financial position does not motivate any other assessment than that the company and Group can continue its business and that the company and Group can be expected to meet its commitments in both the short and long term.

It is the Board's judgment that the size of shareholders' equity as reported in the 2013 annual report is in reasonable proportion to the scope of the company's and Group's business and the risks associated with running the business even after execution of the proposed authorizations.

Justification for the proposals

Against the above background and other information considered by the Board, the Board considers that both of the authorizations for the Board to decide on purchases of the company's own shares are justifiable with consideration to the requirements that the type, scope and risks of the business place upon the size of the company's and Group's shareholders' equity and the consolidation requirements, liquidity and position in general.
