

# QUALITY POLICY.

*The Quality Policy is an expression of the commitment to our customers, employees and other key stakeholders.*

*The Quality Policy reflects our values and company culture and is the starting point when we set our goals.*

Semcon shall have a sustainable business approach:

- with a company culture where our employees enjoy working
- that offers competences and experience that matches our customers' needs and requirements
- that offers sustainable innovations to our customers and is conscious about our own environmental footprint
- with satisfied and returning customers
- with continuous improvements and long-term profitability, to meet the demands from our stakeholders

Guided by social responsibility and governed by ethical and legal requirements
